Education

University of Economics Ho Chi Minh City (UEH)

Bachelor of Engineering in Logistics Technology

GPA: **3.89/4.00** - Average: **8.99/10**

Academic Focus: Logistics Operations, Systems Analysis, Supply Chain Technology

Honors: Award B – UEH Young Researcher Award 2024–2025; Award B – CTD Scholars 2025; Second Prize – Robot Challenge 2025; Top 20 – SCMission 2026: The Vanguard

Ho Chi Minh, Viet Nam

2024 – Present

National United University (NUU)

Engineering Exchange Program

Miaoli, Taiwan

Feb 2025 – Jun 2025

Rajamangala University of Technology Lanna (RMUTL)

International Student Exchange Program — Faculty of Engineering

Thailand

Jun 2026 – Jul 2026

Project Experience

SCMission 2026: The Vanguard Vietnam

Production Planning & Operations Optimization — Team Project | Top 20 2026

- Developed an end-to-end operational plan for a Vietnamese toy manufacturer, integrating production, inventory, logistics, and service decisions.
- Applied production planning, capacity analysis, MPS & MRP, and scenario analysis to evaluate production requirements and operational constraints.
- Developed a coordinated recovery plan across production, inventory, logistics, and customer service decisions.

CTD Scholars 2025 UEH

AIoT-Based Operational Monitoring & Product Verification — Team Research | Award B 2025

- Developed an AIoT operational monitoring MVP integrating sensors, edge AI, data processing, computer vision, and monitoring interfaces.
- Integrated physical sensing and digital monitoring to improve process visibility and automated product verification.
- Applied IoT and AI technologies to operational monitoring and system-level problem solving.

Robot Challenge 2025 UEH

Autonomous Picking Robot — Competition Project | Second Prize 2025

- Built and tested a working autonomous picking robot prototype using robotics, automation, and computer vision.
- Conducted iterative system testing and troubleshooting to improve automated task execution.

Leadership & Activities

OpenLAB — 3I, UEH

Standing Member

- Participated in research, testing, and real-world operation of mobile robotic systems.

Ho Chi Minh, VN

2024 – 2025

CTD, UEH

Academic Affairs Member Dec 2025 – Present

- Support academic activities and student engagement within CTD.

Ho Chi Minh, VN

2024 – 2025

Skills & Interests

Operations: Production Planning, Production Scheduling, Material Planning, Process Analysis, Supply Chain Operations

Technical: Microsoft Excel, Power BI, Python, IBM CPLEX, MATLAB

Applied Technology: Machine Learning, Computer Vision, IoT Systems, Robotics

Languages: English (Intermediate)

Interests: Manufacturing Operations, Production Planning, Process Improvement, AI Automation
